“The team at Hulst Jepsen Physical Therapy strives to provide the best service and care for each person on an individual basis. The staff is always professional, yet they bring a personal touch to their work. What I am most impressed with, however, is their commitment to their clients after the physical therapy sessions are over, making sure we know they are available to answer any questions or discuss continuing problems. They really do want to improve lives.” S.P.

“Hulst Jepsen is a wonderful atmosphere for physical therapy. Everyone is so friendly and personable. I appreciate their willingness to work with my schedule. They are a private practice and so the money stays in Michigan, which in this economy means a lot to me. I hate the thought when my physical therapy stops because I will miss them! I highly recommend their services.” K.L.

“I went to Hulst Jepsen Physical Therapy because of their care. They have experience and are well educated, kind and very caring and design programs to fit your needs. They work closely with your doctor to ensure that you are getting the proper treatment. If you need therapy I would fully recommend Hulst Jepsen because of the kind of people they employ.” R.B.
